Boss katana 50 version 2 manual

Boss Katana-50 à € "50W 1x12 Combo Amplifier for Electric Guitar Designed to provide Rock tones ready for Gig while minimizing dependence on a pedalboard, the Katana-50 Boss Amplifier Combo offers 50W in a speaker cabinet of 1x12", so it is suitable for use in small places and practicing at home. The amplifier gives access to 61 BOSS effects through Boss Central Tone. A pedal entry allows you to select between the two tone configuration channels or implement an expression pedal without turning your back on the audience. Five different characters Amplifiers Katana offers five amplifiers characters with shades ranging from organic vintage to high modern gain; Clean is natural and transparent, Crunch offers a small amount of sand, lead has a wide range of gain to adapt to many styles, Brown offers a high-gain refined tone, and the acoustic carrier provides a guitar-oriented tone Acoustic / Eléctricos Pedalboard Tan without pedalboard Via Tone Central Boss, you can choose between 61 Effects, the Katana version update 3 Bring the Roland DC-30 Analog Chorus-Echo, the Boss GE-10 Graphic Equalizer, and the 95E pedal l i i i i to load 15 different modules in the amplifier at any time, using three of them simultaneously; Two TONE SET The settings allow you to store custom amplifiers and effects settings for an instant memory, and you can always jump to the current panel configuration by pressing a foot switching possibilities the external control of specific parameters is possible with An entrance for an optional pedal and an intuitive operation pedal The dedicated buttons dedicated to multiple profile stages and the three-band equalizer allow you to mark tones by heard, it would do it with a tube amplifier Essential effect pairs are adjusted with a simple knob twist, and pitch-adjustment memories can be stored with a short push-button * Power control A power control selector allows you to reduce power, allowing you to lower the volume to play at home SSOB ajac al nE 692 905 492 167.
